## Electrical & Furnace Systems including various types of Electrical – Automation Panels, PCC-PDB, MCC –APFC etc.

**Dear Sir**

While, we take pride in serving the industries for last 35 years as manufacturer of quality products, today we are happy to reintroduce ourselves as not only product supplier but as system provider as envisaged in the New name of our company. We have added combined experience of 100 years in our team by way of 3 professional experts in the field which will enable CN Engineer & systems to capture growing opportunities in developing economy. With addition of such vast knowledge and know how , CN Engineers will now be known as M/s **C N ENGINEERS & SYSTEMS PVT LTD**-an Independent and responsive operating company . We are enclosing herewith a list of our esteemed customers for your ready reference.

We will also be providing valued added services to customers who have various types of Electrical furnaces including Arc and ladle refining furnaces as also supply of state of Art ARC and ladle refining furnace systems.

We now look forward to receiving your requirements and assure you of our fullest support in making your investment a success.

With kind regards,

**Tejas shah**
